

GOSIA SINILO

JUNIOR FULL STACK DEVELOPER

gosiasinilo@gmail.com | <http://www.gosiasinilo.com> | [linkedin.com/in/gosiasinilo](https://www.linkedin.com/in/gosiasinilo) | github.com/gosiasinilo | Reservoir, VIC

PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on project experience and a Master's degree in Mathematics & Computer Science. Recently completed the _nology Full Stack Engineer Program (February 2026), building full stack applications in agile teams with React, TypeScript, Spring Boot, and MySQL. Brings 25+ years of transferable experience in client management, operations, and design across signage, hospitality, and graphic design, with strong problem-solving, communication, and organisational skills. Currently expanding into cybersecurity and AI, and looking to bring a versatile, detail-oriented approach to a forward-thinking development team.

WORK EXPERIENCE

Owner

2017 – Present

LetHerWork — Reservoir, VIC

- Built and manage a custom leather goods and laser engraving business, including the website, product development, and client workflows
- Handle end-to-end client communication and order management, developing strong problem-solving and organisational skills

Function Manager

2022 – 2025

Kent Hotel

- Organised and delivered events in collaboration with clients and head chefs, ensuring alignment with budget and requirements
- Managed end-to-end event coordination, balancing customer expectations, logistics, and operational constraints
- Maintained and designed the venue's website and social media presence
- Led and trained front-of-house staff, building a strong and reliable team
- Managed POS systems, bookings, and reporting tools
- Improved operational efficiency through data tracking and process improvements

Signwriter / Installer

2015 – 2019 full-time, 2019 – present subcontracting

Meza Signs — Architectural Wayfinding Signage

- Prepared and manufactured wayfinding signage from design and production files
- Collaborated with production and installation teams to deliver projects on time
- Led small teams during installations, coordinating tasks and ensuring quality output
- Operated and maintained cutting machinery and tools with precision
- Managed materials and stock to support continuous production workflow

Graphic Designer & Marketing Specialist

2013 – 2015

Pink Lady Cider

- Designed and implemented brand identity across digital and physical platforms
- Built and maintained the company website, improving usability and customer engagement
- Created marketing assets for web, events, and product launches

Graphic Designer / Art Director / Brand Specialist

1998 – current freelance

- Provided graphic design, art direction, and brand development across a range of clients and projects

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Java, HTML5, CSS/SCSS, React, Spring Boot, Node.js

Backend & Databases: REST APIs, MySQL, Firestore

Testing & Practices: TDD, Jest, Unit & Integration Testing, Playwright (learning)

Tools & Platforms: Git & GitHub, AWS (EC2, RDS, S3, CloudFront), Vite, Netlify, Postman, Swagger

Design & UX: User interface design, usability principles, visual hierarchy, responsive design

PROJECT EXPERIENCE

Resource Allocation Platform (Full Stack)

- Designed and built a full-stack platform to assign jobs to temporary workers and manage resource allocation end-to-end
- Developed backend REST APIs with Spring Boot and a relational MySQL database
- Generated realistic test data with Faker and implemented backend unit and integration tests using Jest, following TDD
- Built a responsive frontend with React, TypeScript, and Tailwind CSS
- Integrated an AI-powered feature (using Claude) to recommend suitable temporary workers for jobs
- Deployed on AWS

Full Stack Student Management System (_nology Group Project)

- Extended a full stack application for tracking student performance, assessments, and feedback
- Built backend features with NestJS and MySQL, including role-based access control (RBAC), secure cohort creation with validation, and paginated, role-filtered user endpoints
- Built the frontend with React and TypeScript, and wrote end-to-end tests with Playwright
- Wrote backend unit tests with Jest following TDD practices

Other Projects

- Hangman Web Game: multi-page browser game built with vanilla JavaScript, DOM manipulation, and keyboard input
- Morse Code Translator: bidirectional translator using JSON data structures and unit testing, built with vanilla JavaScript
- Google Books Search App: integrated the Google Books API with Firestore and dynamic UI components
- E-commerce Store: online shop with product browsing, cart management, and favourites, built with React and Firebase

EDUCATION

Full Stack Engineer Program

_Nology

Completed February 2026

Certificate IV in Cyber Security

Melbourne Polytechnic

Ongoing – expected December 2027

Diploma in Finance and Mortgage Broking

Entry Education

Completed December 2023

Diploma in Marketing

Carrick Institute of Education

2011

Master of Mathematics & Computer Science

Nicolaus Copernicus University

01.10.1998 – 19.07.2004

CERTIFICATIONS & LICENSES

Full Australian Driver's License • Working With Children Check • RSA (Responsible Service of Alcohol) • First Aid Level 2
• Member, Australian Information Security Association (AISA)
